***Reasons For Allowance***

The prior art of record does not disclose or fairly suggest an apparatus for light therapy comprising a light emitting diode array with a targeting mechanism with a targeting light source for repeatably positioning the array and an imaging mechanism to capture and record a target area and a sequencing mechanism to allow the target light and image recording to be off in a first position, allowing the target light to be on and the image recording to be off in a second position and allowing the target light to be off and recording of images in a third position. Prior art discloses a variety of light therapy systems with LEDs and targeting mechanisms, including the overlaying of images to position a therapy system, however, none disclose the specific sequencing claimed in the instant application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry M. Johnson, III whose telephone number is (571) 272-4768. The examiner can normally be reached on Monday through Friday from 6:00 AM to 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C. Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
